

sempermed® 

SURGICAL GLOVE SOLUTIONS

DEVELOPED, PRODUCED & PACKAGED IN EUROPE

MILE STONES

1824 GROUNDBREAKING BEGINNINGS

Semperit is founded by Johann Nepomuk Reithoffer, a tailor, entrepreneur and inventor specialising in waterproof fabrics. His patented weaving machine marks the start of the European rubber industry.

1852 OUR FUTURE HOME

Construction commences on a factory in Wimpassing, Austria, which will one day house Sempermed's surgical glove production and research and development centre.

1920 FIRST GLOVES

Semperit starts producing latex gloves.

1960s GLOBAL APPEAL

Sempermed surgical gloves are donned by professionals around the world.

1997 A NEW EUROPEAN MARKET LEADER

Sempermed® Supreme, one of the most frequently used powder-free surgical gloves in Europe, establishes itself as a glove of choice for surgeons.

2016 INNOVATION AWARD

Our patented photochemical process, used to manufacture the skin-friendly, accelerator-free Sempermed® Syntegra UV, is awarded the prestigious EARTO innovation award.

2018 SUSTAINABILITY & SKIN-FRIENDLINESS

The innovative Green Glove Technology introduces a new level of sustainability in glove manufacturing.

2020 A CENTURY OF GLOVE EXPERTISE

WHY SURGEONS TRUST SEMPERMED

Listening to healthcare professionals and observing them at work, we understand which innovations make a real difference in the operating room. We continuously push for new products that empower and protect surgical staff, care for even the most sensitive skin, and are manufactured in a more sustainable manner.

DOUBLE PROTECTION

Sempermed surgical gloves are double-certified*, in accordance with Medical Device Directive 93/42/EEC as well as Personal Protective Equipment Regulation (EU) 2016/425, to ensure your safety. Thanks to an optimised wall thickness, our gloves offer superior tactile sensitivity without making any concessions when it comes to your protection.

*except Sempermed Senso

SAFE FOR SENSITIVE SKIN

We offer solutions that protect your skin from common allergies. Synthetic materials which are free from allergenic latex proteins, skin-friendly manufacturing methods like our patented UV technology, and our specially developed washing and finishing process significantly reduce the risk of skin allergies.

QUICK AND EASY TO DON

Our surgical gloves possess excellent donning properties thanks to the specially developed Quick Don™ technology. The powder-free synthetic inner coating reduces friction resistance, making our easy-to-don surgical gloves ideal for double-donning and intraoperative glove changes.

A COMPREHENSIVE PORTFOLIO

Surgeons and OR personnel encounter highly sensitive or high-risk procedures in their daily work. Our extensive portfolio, containing features like a micro-rough outer surface or an optimised wall thickness, offer solutions that empower and protect surgical staff and patients.

FULLY ANATOMICAL SHAPE

With a design based on a natural, relaxed hand posture featuring a slightly wider back of the hand, our gloves allow for superior mobility and ensure that hands experience significantly less fatigue, especially during long procedures.

MADE IN AUSTRIA SINCE 1920

We develop and produce surgical gloves in Austria. As a globally operating company with strong European values, we are committed to the International Labour Organisation's standards, are an amfori Business Social Compliance Initiative member, and are always on the lookout for more sustainable solutions.

IMPORTANT NOTE: The latest product information is available at www.sempermed.com under the 'Products' tab. Failure to observe this information, in particular with regard to (chemical) resistance, frequency of use and tolerability of the gloves, can result in personal injury and/or material damage. **Semperit is not liable for incorrect use of the gloves nor will Semperit be liable for improper storage and handling.** In case of damage or unusual signs of wear and tear, gloves shall not be used. In case of any doubt, expert advice should be sought before use. The information and classification is up to date as of the date of publication. Technical details are average values from production and may vary in individual cases. This disclaimer is subject to mistakes, printing errors and amendments. **CAUTION: Natural latex can cause allergic reactions, including anaphylactic shock. Semperit bears no liability for allergic reactions.** ©Copyright 2019 Sempermed

PRODUCT BENEFITS

AWARD-WINNING PROTECTION FOR YOUR SKIN

- **Polyisoprene:**
excellent comfort & protection
- **Low-allergenic¹⁾:**
accelerator-free & latex-free
- **Great comfort:**
extraordinary latex-like fit & feel
- **Fast & easy to don:**
Quick Don™ inner coating

ADVANCED SKIN PROTECTION & PERFORMANCE

- **Reduced allergy risk:**
innovative accelerators, latex-free
- **Fast & easy to don:**
Quick Don™ inner coating
- **Great comfort:**
extraordinary latex-like fit & feel
- **Anatomical shape:**
reduces strain for wearer

THE INNER GLOVE FOR HIGH-RISK PROCEDURES

- **Ideal inner glove:**
designed for double-donning
- **Skin-friendly:**
innovative accelerators, latex-free
- **Great comfort:**
extraordinary latex-like fit & feel
- **Wall thickness**
optimal for high-risk surgeries

TYPE Sterile surgical glove for single use, powder-free, with synthetic lining

MATERIAL Synthetic polyisoprene Synthetic polyisoprene Synthetic polyisoprene

COLOUR White Cream Green

GLOVE SHAPE Fully anatomical with curved fingers and rolled rim

SIZE/OVERALL LENGTH
as per EN 455-2
